AUTOMATIC DOOR CLOSER

SUPERIOR PERFORMANCE

■ WITH A SIMPLE PUSH OF A BUTTON, THE DRIVER CAN CLOSE THE DOOR WITHOUT HAVING TO EXTEND OUT OF THE MACHINE TO REACH IT - A POPULAR AND UNDERRATED TOOL IN OUR QUEST FOR GREATER OPERATOR COMFORT.

AUTOMATIC DOOR CLOSER

FUNCTION

With a simple push of a button, the driver can close the door without having to extend out of the machine to reach it - a popular and underrated tool in our quest for greater operator comfort.

The system is hydraulically controlled either from the driver's seat or on the bottom corner of the exit door. The pressure is stored in the accumulator system, making it possible to close the door with a simple push of the button on exiting the machine.

APPROVED

Automatic door closer is tested and approved in ROPS / FOPS tests

SUITABLE FOR

The system is optional, not standard, and is available to L9 - L20.

Subject to alteration
